CONFERENCES

International Symposium on Neglected Influenza Viruses

Location: Amelia Island, Florida, USA

Dates: 3-5 Feb 2010

The International Symposium on Neglected Influenza Viruses will bring together international scientists whose work focuses on mammalian influenza viruses from non-human/non-avian sources. This conference will examine an extensive body of swine and equine influenza data and also consider what roles, if any, canine influenza and marine mammal influenza might play in new epidemics and epizootics.

For details see: <https://www.isirv.org/events/neglected-influenza/overview>
