FUNDING/COLLABORATION OPORTUNITIES

Ecology of Infectious Diseases (EID)

US-UK Collaborative Projects

The new version of the Ecology of Infectious Diseases solicitation (NSF 10-616) includes an expansion of the US-UK collaborative activity, which now includes the Biotechnology and Biological Sciences Research Council (BBSRC) as well as the Economic and Social Research Council (ESRC). Please see that solicitation for details.

- In order to enhance the ability of US and UK scientists to form collaborations, we have established a website where you can list who you are, your research interests, and your desire to collaborate. You can then use the site to find others. To register on the site, go to <https://extwiki.nsf.gov/x/hQFm>. Once registered, follow the instructions for posting information.

More details at: http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5269&org=EF
