## **NEWSLETTERS**

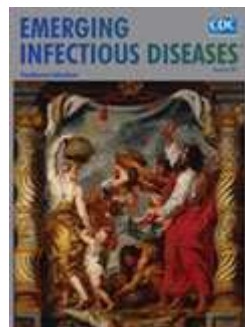

### [European Food Safety Authority - in focus: Animals No. 8](#)

Features EFSA's latest scientific activities in the areas of animal health and welfare, feed additives, biological hazards, zoonoses and contaminants in the food chain.

This issue includes:

- EFSA looks at the welfare of broiler chickens and their breeding
- EFSA evaluates factors contributing to Campylobacter in chicken
- No chronic wasting disease in European deer
- New research results on EU consumers' perceptions of food-related risks
- EFSA seeks external experts to review the quality of its scientific outputs
- Consumers trust national food safety agencies and EFSA
- EFSA networks: Capitalising on Member State expertise
- Stakeholder technical meeting on animal welfare during transport
- EFSA at ESCAIDE 2010
- EFSA shares progress on its work on emerging risks

## **JOURNALS**
